NO SMOKING RULE at Barron Square

The Board of Directors has been asked to consider implementing a "NO SMOKING" rule for Barron Square. In the opinion of the Association's attorney, a simple rule change would be sufficient to prohibit the smoking of cigarettes (including electronic cigarettes), cigars, pipes, etc in the Common Areas, including the exclusive use Common Areas (decks, patios, garages). If the membership wished to prohibit smoking within the entire complex, including within the units, a modification of the CC&R's approved by a majority of the owners would be required.

Before proceeding with further consideration of this topic, the Board would like to solicit the opinions of the members of the Association. Please help us by clicking on the link below to answer a short questionnaire.
