

Notice to Residents

November 25, 2016

Barron Square is *"Fobulous"*

All the locks on the pool gates, clubhouse, tennis court and ECR gate have now been replaced with a new system using RFID key fobs. Both pool gates have been replaced with new, steel gates which meet the Santa Clara County code for swimming pools.

To use the new fobs, simply touch the fob to the black area on the front of the lock. A green light will indicate that the lock is unlocked and you can open the door or gate. The lock code which was used until the fobs had been distributed will be removed on Sunday, November 27th.

PLEASE NOTE: All residents have been issued two (2) key fobs to replace the previous keys for the recreational areas. **If you did NOT receive your fobs, or if you encounter problems using them, please contact Maurice Green (650-493-5914) or PML.** Offsite owners will be provided a key fob upon written request to PML.
