

# **NO DRIVING & NO PARKING** **BETWEEN 8:00AM – 4:00PM**

In order to extend the service life of your street, and improve the appearance and skid resistance, The City of Palo Alto has hired Graham Contractors to apply a "Microsurface" to various streets in your neighborhood. "Microsurface" is made of asphalt "oil" and finely crushed rock. "Microsurface" is designed to protect streets from damage caused by traffic, sun and water. We appreciate your cooperation in this matter and will do our best to minimize the inconvenience to you and your families.

On the date the "Microsurface" is applied, the street will be CLOSED TO ALL TRAFFIC, including bicycles from 8:00 am to 4:00 pm. The sidewalk will remain open at all times. For the work to be completed safely and professionally, it is IMPERATIVE that vehicles and trailers not be driven or parked on the street the day it is scheduled to be resurfaced. VEHICLES and TRAILERS WILL BE TOWED TO CLEAR THE STREET! If you need to use your vehicle or trailer, it is recommended that you park it on an adjacent street that is not scheduled for "Microsurface" that day. No Parking signs will be posted on streets scheduled for "Microsurfacing".

Also, please do not water lawns or bushes on the days that construction is scheduled, as this may cause a permanent unsightly appearance on the street in front of your home! The oil used on your street will "track" stains onto driveways, sidewalks, etc. if driven through prematurely, and IT WILL STAIN YOUR CARPETS if tracked into your home!

The garbage company has been notified of this schedule, and will make EARLY pick-up if your street is scheduled for microsurface on garbage day. Please have your garbage cans to the curb by 6:00 am if your street is scheduled for "Microsurface" on the same day as garbage day.

We apologize for any inconvenience this may cause you, but with your cooperation we can make this a project that will improve the appearance of your neighborhood while saving you tax money on costly future street repairs.

**\*\*\* EMERGENCY VEHICLES WILL HAVE ACCESS AT ALL TIMES \*\*\***  
**TEMPORARY "NO PARKING" SIGNS WILL BE POSTED ON THE STREETS.**  
**IF THE WORK IS NOT COMPLETED ON THE DAY SCHEDULED, YOU WILL BE**  
**RENOTIFIED.**

**SEE BACK OF PAGE FOR SCHEDULE**

If you have any questions, please contact Roger Nguy at (650) 833-8165

**THANK YOU FOR YOUR PATIENCE**
